

Press release

26th March 2014

Dundalk Chamber team up with Belfast Chamber to create business links

Over 60 companies travelled to the Europa Hotel in Belfast to take part in a Cross Border Speed Networking event. Delegates came from all sectors with a great mix of businesses from both North and south.

Business networking is essential to grow your business, gain new customers, clients and contacts. Getting face to face with a potential client or partner is the only way you really know whether you can do business with them or not. However, traditional networking events can sometimes be unproductive, as many of us tend to gravitate towards those we already know, never getting the opportunity to meet other potential lucrative business contacts.

That is why Dundalk Chamber in conjunction with Belfast Chamber hosted a FREE Cross Border Speed Networking Event, guaranteeing delegates the opportunity to meet a large number of individuals that they would never otherwise have had the chance to network with.

This event was sponsored by Eures Cross Border Partnership and this event is just one of a series being organized by Dundalk Chamber.

Dundalk Chamber is part of a European Commission network called EURES (European Employment Services). EURES advisers are trained specialists who provide information and guidance to jobseekers and employers interested in the European labour market and Cross Border Working. For more information on Eures log on to www.eures-crossborder.org
