Following on from the success of last year, we are delighted to announce another Women In Enterprise Masterclass.

At AIB, we're backing our business customers. That's why, when research showed that female business owners want greater access to the tools, skills and guidance to grow their businesses, we established the AIB Women in Enterprise Programme.

Backed by AIB and facilitated by The Entrepreneurs Academy, this intensive half-day Masterclass is packed with practical advice and hands-on tools, which you can immediately implement into your business.

Leadership Development | Business Cultivation | Accelerate your Business | Financial Freedom
