

You are invited to the launch of
dConnect
Digital Health Innovation Hub,
Dundalk Institute of Technology

dConnect is a bridge between business, the healthcare sector, universities and society. Early-stage businesses have access to education and a network to support their growth. Large businesses and investors have a view of leading-edge innovation.

Our knowledge cluster supports researchers and start-ups to commercialize innovation by helping them gain access to larger businesses and investors.

dConnect's aim is to stimulate and enhance growth in Ireland's Digital Health sector through partnerships and knowledge-sharing, bringing together entrepreneurs, researchers, innovators, investors and corporations to deliver disruptive technologies that will revolutionise healthcare.

Come along to meet the
dConnect team on
25th May 2021 9am - 10.30am
to discover how
dConnect can help your business
