

ENSO Sustainability Platform

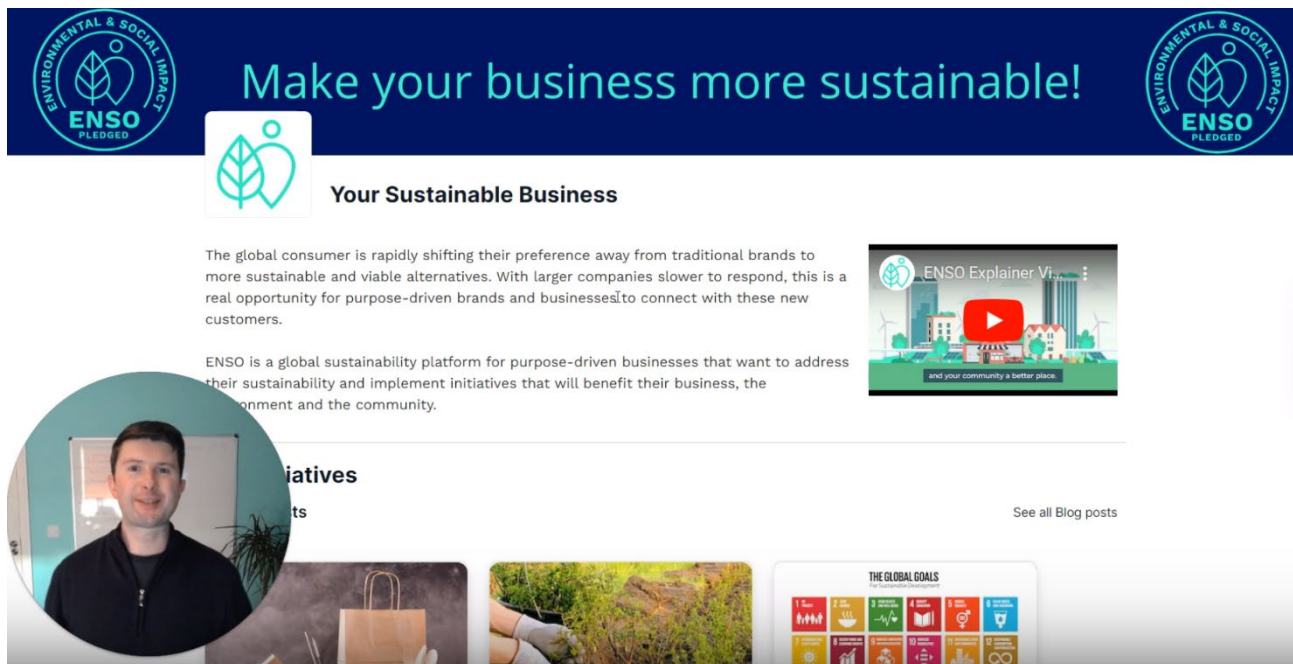

Fully-Funded Programme in Partnership with Skillnet Taste 4 Success

Join 40+ other Irish food and drink producers who are improving their sustainability performance and benefitting from being a sustainable business.

ENSO is an online platform which enables your business to benchmark and improve its sustainability performance and communicate it to customers who care. Our focus is on creating value for businesses through sustainability and making it something which can add real value to your business, brand, and communications.

ENSO have partnered with Skillnet Taste 4 Success to provide a **fully-funded** sustainability programme for Irish food and drink producers. This means that you can use the ENSO platform for 12 months, for free, and kickstart your sustainability journey!

Video: Watch our **2-minute** video to learn more about the ENSO platform and see how we can help your business become more sustainable and create value through sustainability. Click [here](#) to watch our video.

Make your business more sustainable!

Your Sustainable Business

The global consumer is rapidly shifting their preference away from traditional brands to more sustainable and viable alternatives. With larger companies slower to respond, this is a real opportunity for purpose-driven brands and businesses to connect with these new customers.

ENSO is a global sustainability platform for purpose-driven businesses that want to address their sustainability and implement initiatives that will benefit their business, the environment and the community.
